

2-A.G

3' - 0" (VERIFY)

1 1/4" RECESSED SIGNAGE

GAS METERS

The drawing shows a side elevation of a building. On the left, a grey horizontal siding section features the word "Xcel" in a stylized, outlined font. To the right of this, a vertical section of the building is shown with a recessed area for signage, indicated by a dimension line labeled "3' - 0" (VERIFY)". Further right, a vertical section of the building is shown with a recessed area for signage, indicated by a dimension line labeled "1 1/4" RECESSED SIGNAGE". Below this, two gas meters are mounted on the wall, indicated by a dimension line labeled "GAS METERS". The building is situated on a sidewalk with a curb and a street in front. A circular callout at the top right contains the text "2-A.G".

Diagram illustrating the placement of electrical meters and channel modules on a building facade. The diagram shows a section of the facade with various modules and components labeled:

- 3-C**: A circular label indicating the location of a channel module.
- 3-D.G 3G**: A circular label indicating the location of a channel module.
- SLOPED ALUM. FLASHING AT TOP OF ELEC. METER**: A label pointing to the top of the electrical meter.
- RETE AT**: A label pointing to the top of the electrical meter.
- ELECTRICAL METERS**: A label pointing to the electrical meters.
- LOCATE ELECTRICAL METERS AT 4FT RESIN PANEL MODULE**: A label pointing to the location of the electrical meters.
- ADDITIONAL C CHANNEL AS NECESSARY**: A label pointing to the location of an additional channel.
