♦ The Galvalume Plus® coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus® coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, MBCI recommends that pre-painted panels be used in lieu of Galvalume Plus®. Shade variation in panels manufactured from Galvalume Plus® coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the MBCI LOKSEAM® DESIGN & INSTALLATION MANUAL for proper product application, design details and other product information.

PANEL PRICING:

1. All pricing is based on net coverage.
2. For short panel lengths, add: \$3.70 per panel for panels 4'-0" in length and shorter.
3. Panels must be specified as: "Striated", or "Non-Striated". No charge for Striations.
4. Add \$7.55 per square for embossing.
5. Panels may be specified as: "Notched" for folding hem at eave. Add 3 inches to panel length. Notching charge \$1.10 per panel. If notching is requested, panels will be notched 1 1/2" at both ends. **Note: Notching is only available for Blank Panels.**
6. Panels must be specified as "blank" (no endlaps), "eave", "mid", or "peak" (when endlaps are required).
7. For panels with swaged ends (required at endlaps), add \$5.15 per panel. **Panels less than 4'-0" can not be swaged.**
8. All prices include standard packaging.
9. See Page ARP-25 for clip pricing.
10. Panel price includes mastic. For panels without mastic in the sidelap, deduct: \$4.20 per square for 18" wide panels.
\$4.75 per square for 16" wide panels.
\$6.30 per square for 12" wide panels.

PACKAGING COST:

1. Standard packaging: Block and band with strippable film on female rib of painted panels. Galvalume Plus panels will have microfoam interleaving.
2. Optional interleaving: Microfoam interleaving: available at \$.10 per square foot.
3. LTL shipments require plywood crating with microfoam interleaving.
4. Plywood crating: Add \$15.50 per lineal foot - \$200.00 minimum.
5. Special packagingPlease Inquire

DELIVERY:

1. 24 gauge - stocked colors (see back of Architectural Color Chart)Approximately 10 Working Days
2. 26 gauge not available for 16" or 18" wide panels.
3. Other gauges, colors and metalsPlease Inquire

NOTES:

1. All panel lengths over 40'-0"Please Inquire
2. **Striations are recommended on 18", 16" and 12" panels; MBCI standard will include light striations. If non-striated panels are required, customer must specify in writing on order and sign MBCI Striation Waiver to Production.**
3. **Heavier gauges, narrower widths, striations and embossing may minimize oil canning.**
4. **Panel lengths 4'-0" or less do not have factory applied mastic.**

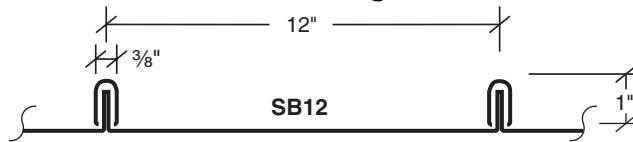

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. Installation of material constitutes acceptance.

1. All pricing is based on net coverage.
2. For short panel lengths, add: \$3.70 per panel for panels 4'-0" in length and shorter.
3. Add \$7.55 per square for embossing.
4. Pricing includes pans, battens, clips spaced two feet on center and standard packaging. Pricing does not include clip fasteners. For component pricing, refer to component accessory prices.

PACKAGING COST:

1. Standard packaging: Block and band with strippable film on female rib of painted panels. Galvalume Plus panels will have microfoam interleaving.
2. Lengths greater than 20'-0" require plywood crating.
3. LTL shipments require plywood crating.
4. Plywood crating: Add \$15.50 per lineal foot - \$200.00 minimum.
5. Special packagingPlease Inquire

DELIVERY:

1. 24 gauge - stocked colors (see back of Architectural Color Chart)Approximately 10 Working Days
2. Other gauges, colors and metalsPlease Inquire

NOTES:

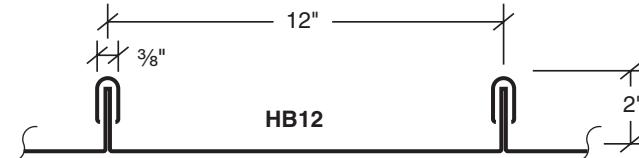

1. Lengths longer than 40'-0"Please Inquire
2. All panels not being installed over a solid substructurePlease Inquire
3. Batten length will be equal to panel length unless there is a slope change.
4. Slope change: For each slope change add four inches (4") to each batten and one (1) extra clip. There will be no additional charge for this condition.
5. Heavier gauges, narrower widths and embossing may minimize oil canning.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. Installation of material constitutes acceptance.

❖ The Galvalume Plus® coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus® coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, MBCI recommends that pre-painted panels be used in lieu of Galvalume Plus®. Shade variation in panels manufactured from Galvalume Plus® coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the **MBCI CRAFTSMAN™ DESIGN & INSTALLATION MANUAL** for proper product application, design details and other product information.

◊ The Galvalume Plus® coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus® coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, MBCI recommends that pre-painted panels be used in lieu of Galvalume Plus®. Shade variation in panels manufactured from Galvalume Plus® coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the MBCI Designer™ Series TECHNICAL/PRODUCT INFORMATION MANUAL for proper product application, design details and other product information.

PANEL PRICING:

1. All pricing is based on net coverage.
2. For short panel lengths, add: \$3.70 per panel for panels 4'-0" in length and shorter.
3. Add \$7.55 per square for embossing.
4. All prices include standard packaging.

PACKAGING COST:

1. Standard packaging: Cardboard carton with strippable film across panel flat.
2. Optional interleaving: Microfoam interleaving: available at \$.10 per square foot.
3. Lengths greater than 20'-0" require plywood crating.
4. LTL shipments require plywood crating with strippable film on panels.
5. Plywood crating: Add \$15.50 per lineal foot - \$200.00 minimum.
6. Special packaging Please Inquire

DELIVERY:

1. 24 gauge - stocked colors (see back of Architectural Color Chart) Approximately 10 Working Days
2. Other gauges, colors and metals Please Inquire

NOTES:

1. Smooth panels - lengths longer than 24'-0" Please Inquire
2. Embossed panels - lengths longer than 30'-0" Please Inquire
3. **Heavier gauges and embossing may minimize oil canning.**

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. Installation of material constitutes acceptance.

♦ The Galvalume Plus® coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus® coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, MBCI recommends that pre-painted panels be used in lieu of Galvalume Plus®. Shade variation in panels manufactured from Galvalume Plus® coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the MBCI FLEXLOK® TECHNICAL/PRODUCT MANUAL for proper product application, design details and other product information.

PANEL PRICING:

1. All pricing is based on net coverage.
2. For short panel lengths, add: \$3.70 per panel for panels 4'-0" in length and shorter.
3. Add \$7.55 per square for embossing.
4. See page ARP-25 for clip pricing.

PACKAGING COST:

1. Standard packaging: Plywood crate for all lengths with strippable film on panels.
2. Plywood crating: Add \$15.50 per lineal foot - \$200.00 minimum.
3. Special packaging Please Inquire

DELIVERY:

1. 24 gauge - stocked colors (see back of Architectural Color Chart) Approximately 10 Working Days
2. Other gauges, colors and metals Please Inquire

NOTES:

1. All panel lengths longer than 20'-0" Please Inquire
2. Curved panel applications Please Inquire
3. Heavier gauges, narrower widths and embossing may minimize oil canning.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. Installation of material constitutes acceptance.

❖ The Galvalume Plus® coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus® coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, MBCI recommends that pre-painted panels be used in lieu of Galvalume Plus®. Shade variation in panels manufactured from Galvalume Plus® coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

NOTES:

1. Add \$108.00 set-up charge for coil. (Minimum 300 L.F.)
2. Add \$42.00 per coil for wood skid.
3. Add \$42.00 for flat sheet wood skid/Maximum 100 flat sheets or 3000# per skid. Maximum 14' length.
4. Add \$60.00 for LTL crating/Maximum 100 flat sheets or 3000# per skid. Maximum 14' length.
5. Add \$7.55 per square for embossing.
6. All coils are subject to $\pm 15\%$ of quantity ordered.
7. The camber tolerance for coils is one inch in any 20 feet.
8. Strippable film available for flat sheets (except for "Low Gloss Paint Finish Systems") upon request. Add \$.10 per square foot.
9. Slitting available upon request - \$.10 per lineal foot - \$300.00 minimum charge.
10. Flat sheet lengths other than 10'-2" are available upon request. Minimum length 5'-0", maximum length 14'-0". Flat sheet lengths over 14'-0" require special skid. Please inquire.
11. All material is Grade D for flat sheets, Grade D or E for coils.

TRIM PRICING:

1. All trim is 24 gauge material
2. Add \$7.55 per square for embossing
3. When ordering standard trim in custom lengths, use price per linear foot for standard trim plus a 10% surcharge
4. Prices **do not** include standard packaging
5. Strippable film available for trim (Except for "Low Gloss Paint Finish Systems") upon request. Add \$.10 per square foot.

PACKAGING COST:

- | | | |
|--|-------|------------------------|
| 1. Trim with girth greater than 15" | | 20 pieces per carton |
| 2. Trim with girth less than 15" | | 50 pieces per carton |
| 3. Downspouts | | 12 pieces per carton |
| 4. Standard Packaging: Cardboard with metal bands | | \$3.44 per linear foot |
| 5. LTL Packaging: Cardboard with wood blocks and metal bands | | \$4.63 per linear foot |
| 6. Plywood crating | | \$9.50 per linear foot |
| 7. Minimum packaging charge | | \$36.40 per carton |
| 8. Special packaging | | Please Inquire |

DELIVERY:

1. 24 gauge stocked colors (see back of Architectural Color Chart)
 2. Other gauges, colors and metals
- Approximately 10 Working Days
Please Inquire

PRICE YOUR OWN SPECIAL TRIM:

1. Calculate the number of square feet of material (girth x length)
2. Multiply number of square feet by the appropriate square foot price (see chart below)
3. Add \$1.20 for each break and \$2.40 for each hem
4. Add appropriate packaging cost
5. Specify which side of trim has color or finished coat
6. Send a sketch of the special flashing to MBCI with order
7. If more than one special trim is required, number them SF1, SF2, SF3, etc.
8. All trim is 24 gauge unless otherwise indicated
